

CONFLEX XL™

LONG-LASTING WATERPROOF PROTECTION
AGAINST WIND-DRIVEN RAIN.

MEET CUSTOMER EXPECTATIONS AND REDUCE CALLBACKS WITH CONFLEX XL.

ConFlex XL High Build Coating is an elastomeric waterproof coating that protects masonry and concrete surfaces from water penetration, even in severe weather environments. Its thick, elastic film covers, hides and protects for long-lasting durability and excellent efflorescence resistance. Available in smooth and texture finishes, ConFlex XL will not trap moisture vapor inside, which reduces blistering and failures. Application is smooth and efficient, resulting in a pinhole-free finish with less labor.

In addition, ConFlex XL Texture easily minimizes minor surface imperfections and irregularities, delivering a fresh, textured uniform exterior appearance and long-lasting curb appeal with maximum protection from wind-driven rain. Available in a wide range of custom colors, ConFlex XL is ideal for all types of commercial and residential new construction or repaints on stucco, concrete panel, pre-cast concrete panel and CMU.

CONFLEX XL KEY BENEFITS

<ul style="list-style-type: none"> • Bridges hairline cracks and keeps water out, even in wind-driven rain. 	<ul style="list-style-type: none"> • Provides high film build and easy application with excellent efflorescence resistance.
<ul style="list-style-type: none"> • Perfect for application to smooth stucco, concrete panel, pre-cast concrete panel and CMU for commercial and residential new construction and repaints. 	<ul style="list-style-type: none"> • Available in smooth and textured finishes with a wide range of custom colors.
<ul style="list-style-type: none"> • Retains flexibility, hides hairline cracks and surface irregularities and is permeable. 	<ul style="list-style-type: none"> • For select jobs, a performance warranty is available — see your local Sherwin-Williams representative for more details.
